AREA OF WETLANDS AND/OR WATERCOURSES ALTERED:

Include areas that are altered or are proposed to be altered, temporary or permanent, for all agency permits, denials, amendments, and enforcement actions. Remember, these figures represent only the acreage altered, not the total acreage of wetlands or watercourses on the site. Figures should be provided by the applicant in the application. Provide all information in acreage including those areas less than one acre. To convert from square feet to acres, divide square feet by the number 43,560. Enter a zero if there is no alteration. Open water body altered refers to lakes, ponds or similar bodies of water that are filled or dredged. Stream alterations are to be reported in linear feet and include the total length of the river, brook, stream or other watercourse directly altered as a result of the action taken by the agency. Include any culverting (roadway, etc.), channel improvements, rip rap installation, relocation or dredging.

A. Wetland Area Altered: 
   __________ ACRES

B. Open Water Body Area Altered: 
   __________ ACRES

C. Stream Alteration: 
   __________ LINEAR FEET

BUFFER / UPLAND REVIEW AREA ALTERED: 0.073 ACRES

Buffer or upland review areas are those areas adjacent to wetlands or watercourses where activities are regulated by the local agency. Report the acreage of upland review areas that are altered or are proposed to be altered, temporary or permanent, for all agency permits, denials, amendments, and enforcement actions; or for agent approval pursuant to 22a-42a(c)(2). For example, a 2 acre project site may have an activity occurring in 1 acre of buffer / upland review area and 0.25 acres of wetlands. Therefore, 0.25 acres will be reported on line 7A and 1 acre on line 8.

AREA OF WETLANDS AND/OR WATERCOURSES RESTORED, ENHANCED OR CREATED: 0 ACRES

Mitigation measures may be considered as a condition of issuing a permit for an activity. Report areas that are, or are proposed to be, restored, enhanced or created for all agency permits, denials, amendments, and enforcement actions. Restored or enhanced applies to previously existing wetlands or watercourses. For example, a wetland area filled two years ago is proposed to be restored by removing the existing fill. Created applies to an upland area which is converted into wetlands or watercourses.
