¹Limited to appurtenant, at-grade structures <500 square feet and ≥25 feet from wetland/watercourse. See § 211-12 for more information.

²See § 211-4 for details regarding permitted uses as of right and nonregulated uses. Sufficient info must be provided for the Commission to make a ruling.

³Existing permit must be valid for ≥65 days after the date submitted. See § 211-71 for further instructions.

Project Narrative *Please attach reports and supporting documentation as necessary.* Additional Info Attached? Yes No

1. Describe the nature and purpose of proposed regulated activity, request for acceptance of a permitted use as of right or a nonregulated use, map or regulation amendment, or other activity requiring review by the Commission or its Agent:

Construction of single family home and barn. Involves work within the upland review area.

2. Describe how the proposed activity affects wetlands, watercourses, and the regulated areas. Describe the nature of the affected resources, including their function, and list any wetlands of special interest (vernal pool, marsh, bog, etc.):

No direct impact to wetland. Only grading and construction within 100 foot upland review area. Wetlands have been disturbed by past agricultural activities.

3. Describe measures that will be taken to minimize the impact on wetlands, watercourses and the regulated areas, including proposed erosion and sedimentation controls and other management practices or mitigation measures:

Sediment barriers will be used during construction to protect the wetland resource. Construction entrance will be installed to prevent tracking sediment into the street.

4. Describe alternatives considered and why activity proposed in application was chosen as preferred alternative:

Prior plan showed filling to eliminate small isolated wetland. Current plan brings barn forward to eliminate any direct impacts of wetland filling.

Applicant shall provide certification in accordance with Inland Wetlands and Watercourses Regulations, § 211-7G:

- Whether or not any portion of the property on which the regulated activity is proposed is located within 500 feet of an adjoining town. Yes No
- Whether or not a significant portion of the traffic to the completed project will use streets within an adjoining town to exit or enter the site. Yes No
- Whether or not a significant portion of the sewer or water drainage from the project will flow through and significantly impact the sewer or water drainage system of an adjoining town. Yes No
- Whether water run-off from the improved site will impact streets or other municipal/private property within an adjoining town. Yes No

FOR OFFICE USE ONLY

If YES to any of the above, the Commission shall, in accordance with CGS 8-7d(f) and IWWR 211-8C, notify the clerk of any adjoining municipality of the pendency of any application, petition, appeal, request or plan concerning any project on any site. Notice of the pendency of such application shall be made by certified mail, return receipt requested, and shall be mailed within seven (7) days of the date of receipt of the application, petition, appeal, request or plan. (See § 211-8C)

Is any portion of wetland/watercourse within 500' of the boundary of another municipality? Yes* No

*If yes, the applicant shall give written notice of application by certified mail, return receipt requested, on the same day to the Inland Wetlands Commission of other municipality. Proof must be provided to Wetland Agent. See § 211-8

Site Plan Requirements (See § 211-7E) – 2 hard copies and an electronic copy required with application

- Scale of 1" = 20' to 1" = 100', or other scale as appropriate considering the proposal
- Show the proposed activity and existing and proposed conditions in relation to wetlands and watercourses and Upland Review Area.
- For Wetland Permit – field-delineated wetland boundaries with wetland flag numbers/locations and soil scientist's signature on plan.
- Clearing limits/limit of disturbance, property lines, existing and proposed topography, proposed drainage, proposed erosion controls.
- Identify any further activities associated with, or reasonably related to, the proposed regulated activity which are made inevitable by the proposed regulated activity and which may have an impact on wetlands or watercourses.
- Diagram of alternatives considered by the applicant

PLEASE NOTE: If the Conservation Commission determines, based upon its review of the initial submittal, that either the proposed activity involves a significant activity, or additional technical or other information is necessary in order to properly and fully evaluate the proposed activity, any or all of the additional information listed in § 211-7F of the IWWA Regulations may be required in addition to this application and general site plan requirements. The Commission may additionally determine that the application warrants a complex application fee to be paid by the applicant to allow review by third party expert(s) with the appropriate expertise, pursuant to Town Ordinance (see § 114-7, 8, 9, 10).
