Describe in further detail as necessary:

ALL ACTIVITY WILL BE IN ACCORDANCE WITH THE CONNECTICUT FORESTRY BEST MANAGEMENT PRACTICES "2007 CONNECTICUT FIELD GUIDE." THERE ARE NO FOREST ACTIVITIES WITHIN WETLANDS OR WATERCOURSES. FINAL STABILIZATION WILL INCLUDE BUT NOT BE LIMITED TO STRAW MULCH, CONSERVATION MIX SEED ON TRAILS, WATERBARS AND BROAD BASED DIPS.

The following maps are attached to this "Notification" (Check all that apply)

☒ Copy of USGS topographic map with property outlined
☒ Copy of Assessor’s map with property outlined
☒ Timber Harvest Area map showing outline of harvest area, main skid road locations, log landing area, truck access roads, inland wetlands, watercourses and any crossings

The undersigned hereby swear that the information contained in this application is true, accurate and complete to the best of my (our) knowledge and belief and that the timber harvest will be conducted in accordance with the specifications outlined in this " Notification of Timber Harvest."

Certificate #: F000984 Expiration Date: 11/01/2022

Complete and Submit to:
- The Municipal Inland Wetlands Agency/ies in which the property is located, and
- A courtesy copy of this Notification Form should also be sent to The Department of Environmental Protection, Division of Forestry 79 Elm Street, Hartford, CT, Tel: (860) 424-3630

This is not an official CT DEP form but it has been endorsed for town usage by: CT Farm Bureau Assoc., CT Forest & Park Assoc., CT Professional Timber Producers, Society of American Foresters - CT Chapter, and others.
Wildlife & Forest Management, LLC
62 Eaglebrook Road
jameswyso@aol.com
860-803-0777

Owner's Signature: ___________________________  Date: ___________________
1. Describe the nature and purpose of proposed regulated activity, request for acceptance of a permitted use as of right or a nonregulated use, map or regulation amendment, or other activity requiring review by the Commission or its Agent:
The existing property has been managed for wildlife, specifically early successional/young forest habitat.
Due to impact of drought/gypsy moth, many oak trees have died within the past year. The harvest area will be
the same area as previously permitted, using the same roads that were previously permitting, and will be
outside of the inland wetlands and water courses.

2. Describe how the proposed activity affects wetlands, watercourses, and the regulated areas. Describe the nature of
the affected resources, including their function, and list any wetlands of special interest (vernal pool, marsh, bog, etc.):
The proposed logging activity will not affect wetlands, watercourses, or regulated areas.

3. Describe measures that will be taken to minimize the impact on wetlands, watercourses and the regulated areas,
including proposed erosion and sedimentation controls and other management practices or mitigation measures:
All logging activities will be in accordance with the Connecticut Forestry Best Management Practices.

4. Describe alternatives considered and why activity proposed in application was chosen as preferred alternative:
With 0 square feet of proposed impact, the best alternative was chosen.

Applicant shall provide certification in accordance with Inland Wetlands and Watercourses Regulations, § 211-7G:
1. Whether or not any portion of the property on which the regulated activity is proposed is located within 500 feet of an adjoining
town. [X] Yes ☐ No
2. Whether or not a significant portion of the traffic to the completed project will use streets within an adjoining town to exit or
enter the site. ☐ Yes [X] No
3. Whether or not a significant portion of the sewer or water drainage from the project will flow through and significantly impact
the sewer or water drainage system of an adjoining town. ☐ Yes [X] No
4. Whether water run-off from the improved site will impact streets or other municipal/private property within an adjoining town.
[ ] Yes [X] No

FOR OFFICE USE ONLY:
If YES to any of the above, the Commission shall, in accordance with CGS 8-7d(l) and IWWA 211-8C, notify the clerk of any adjoining municipality of the pendency of any application, petition, appeal, request or plan concerning any project on any site. Notice of the pendency of such application shall be made by certified mail, return receipt requested, and shall be mailed within seven (7) days of the date of receipt of the application, petition, appeal, request or plan. (See § 211-8C)

Is any portion of wetland/watercourse within 500' of the boundary of another municipality? [X] Yes* ☐ No

*If yes, the applicant shall give written notice of application by certified mail, return receipt requested, on the same day to the Inland
Wetlands Commission of other municipality. Proof must be provided to Wetland Agent. See § 211-8

Site Plan Requirements (See § 211-7E) – 2 hard copies and an electronic copy required with application
- Scale of 1” = 20’ to 1” = 100’, or other scale as appropriate considering the proposal
- Show the proposed activity and existing and proposed conditions in relation to wetlands and watercourses and Upland Review Area.
- For Wetland Permit – field-delineated wetland boundaries with wetland flag numbers/locations and soil scientist’s signature on plan.
- Clearing limits/limit of disturbance, property lines, existing and proposed topography, proposed drainage, proposed erosion controls.
- Identify any further activities associated with, or reasonably related to, the proposed regulated activity which are made inevitable by
the proposed regulated activity and which may have an impact on wetlands or watercourses.
- Diagram of alternatives considered by the applicant

PLEASE NOTE: If the Conservation Commission determines, based upon its review of the initial submittal, that either the proposed activity
involves a significant activity, or additional technical or other information is necessary in order to properly and fully evaluate the proposed
activity, any or all of the additional information listed in § 211-7F of the IWWA Regulations may be required in addition to this application and
general site plan requirements. The Commission may additionally determine that the application warrants a complex application fee to be paid
by the applicant to allow review by third party expert(s) with the appropriate expertise, pursuant to Town Ordinance (see § 114-7, 8, 9, 10).

Please note that the image contains a form from the Town of Somers Conservation Commission, specifically for Inland Wetlands & Watercourses Application. The form includes sections for Property Owner’s Information, Applicant’s Information (if different than owner), Property Information, and Application Information. It also includes fields for addresses, phone numbers, and various declarations regarding the project, including whether a permit is required, the size of property, and the type of application. The application requires the submission of detailed information and signatures, and it’s a legal document that needs to be completed accurately. It's important to fill out all the required information to ensure the application is complete and accurate.
### Project Narrative

**Please attach reports and supporting documentation as necessary.** Additional Info Attached? □ Yes □ No

1. Describe the nature and purpose of proposed regulated activity, request for acceptance of a permitted use as of right or a nonregulated use, map or regulation amendment, or other activity requiring review by the Commission or its Agent:

   - **The existing property has been managed for wildlife, specifically early successional/young forest habitat.**
   - Due to impact of drought/gypsy moth, many oak trees have died within the past year. The harvest area will be the same area as previously permitted, using the same roads that were previously permitting, and will be outside of the inland wetlands, water courses, and upland review area.

2. Describe how the proposed activity affects wetlands, watercourses, and the regulated areas. Describe the nature of the affected resources, including their function, and list any wetlands of special interest (vernal pool, marsh, bog, etc.):

   - The proposed logging activity will not affect wetlands, watercourses, or regulated areas.

3. Describe measures that will be taken to minimize the impact on wetlands, watercourses and the regulated areas, including proposed erosion and sedimentation controls and other management practices or mitigation measures:

   - All logging activities will be in accordance with the Connecticut Forestry Best Management Practices.

4. Describe alternatives considered and why activity proposed in application was chosen as preferred alternative:

   - With 0 square feet of proposed impact, the best alternative was chosen.

---

### Applicant shall provide certification in accordance with Inland Wetlands and Watercourses Regulations, § 211-7G:

1. Whether or not any portion of the property on which the regulated activity is proposed is located within 500 feet of an adjoining town. □ Yes □ No

2. Whether or not a significant portion of the traffic to the completed project will use streets within an adjoining town to exit or enter the site. □ Yes □ No

3. Whether or not a significant portion of the sewer or water drainage from the project will flow through and significantly impact the sewer or water drainage system of an adjoining town. □ Yes □ No

4. Whether water run-off from the improved site will impact streets or other municipal/private property within an adjoining town. □ Yes □ No

**FOR OFFICE USE ONLY**

If **Yes** to any of the above, the Commission shall, in accordance with CGS 8-7d(lf) and IWWR 211-8C, notify the clerk of any adjoining municipality of the pendency of any application, petition, appeal, request or plan concerning any project on any site. Notice of the pendency of such application shall be made by certified mail, return receipt requested, and shall be mailed within seven (7) days of the date of receipt of the application, petition, appeal, request or plan. (See § 211-8C)

---

### Site Plan Requirements (See § 211-7F) – 2 hard copies and an electronic copy required with application

- Scale of 1" = 20' to 1" = 100', or other scale as appropriate considering the proposal
- Show the proposed activity and existing and proposed conditions in relation to wetlands and watercourses and Upland Review Area.
- For Wetland Permit – field-delineated wetland boundaries with wetland flag numbers/locations and soil scientist’s signature on plan.
- Clearing limits/limit of disturbance, property lines, existing and proposed topography, proposed drainage, proposed erosion controls.
- Identify any further activities associated with, or reasonably related to, the proposed regulated activity which are made inevitable by the proposed regulated activity and which may have an impact on wetlands or watercourses.
- Diagram of alternatives considered by the applicant

**PLEASE NOTE:** If the Conservation Commission determines, based upon its review of the initial submittal, that either the proposed activity involves a significant activity, or additional technical or other information is necessary in order to properly and fully evaluate the proposed activity, any or all of the additional information listed in § 211-7F of the IWWR Regulations may be required in addition to this application and general site plan requirements. The Commission may additionally determine that the application warrants a complex application fee to be paid by the applicant to allow review by third party expert(s) with the appropriate expertise, pursuant to Town Ordinance (see § 114-7, 8, 9, 10).
