

Assessor Office Update – April 06, 2020

Elderly Homeowner/Total Disabled Relief Program
Motor Vehicle Transfers
Renters Program
Revaluation Update

The Assessor's Office is receiving emails and returning phone calls to continue to serve the public. Reminder notices have recently been mailed to those individuals whose year it is to file their Elderly Homeowner/Total Disabled relief program. These applications are due May 15th. The Assessor's office is encouraging the people to supply their income information to the Town by:

1. Mailing their originals to the Assessor's Office. A copy will be made and the originals returned to the homeowner via mail.
2. Using the drop box located outside the Town Hall's front door. This box is labeled tax payments.
3. Scanning and emailing your information to this office.

Any documentation concerning the transfer of Motor Vehicles may also be delivered by the methods just mentioned.

The Renters program will be delayed for providing information to the Assessor's Office until after June 1st.

Vision Government Solutions is the company hired to complete the 2020 town wide revaluation. The data collectors will be knocking on your door and verifying your interior information from the door without entering your home. They have identification and a letter of introduction from this office. Additionally, the motor vehicle information has been registered with the police department.
