

# **2020 Annual Report – MS4 General Permit**

**Town of Somers**  
Somers, Connecticut

April 2021

Prepared by:

146 Hartford Road  
Manchester, CT 06040

**MIP4 General Permit Report  
2020 Status MIP4 Permittee  
Permit Number FIM 000101**

January 1, 2020– December 31, 2020

**Primary MIP4 Contact: Todd Roffand, Director of Public Works and Recreation  
602-265-2240 and somersct@o?**

This report documents The Town of Somers' efforts to comply with the conditions of the MIP4 General Permit the extent practicable MIP4 from January 1, 2020 to December 31, 2020.

**Part II Summary of Minimum Control Measure Activities**

**1. Public Education and Outreach Section 6(a)(1) page 11**

**1.1 MIP4 Summary**

Item	Status	Activities in current reporting period	Measure Total	Department Person Responsible	Date completed or projected completion date	Additional details
1.1 Provide information on Town website	Complete	See table below for details	Update and Paintball To津 Lebselle to Enclosed edcatona? Dates	Public Works	1/11, 2011	Jan 31, 2011
1.2 Address edcaton outreach for participants of concern?	Complete	fact sheet is not distributed with every new license issued?	Indicate no? partners about Public Works to Paste by distrbution? a fact sheet "every new do? license issued"	Public Works, Town Clerk's Office	Individually	Part of "Clean Waters Start in Your Home and Yard: Protect Paste and Water Quality" relans aappable through the Town's stormwater website?

Item	Status	Activities in current reporting period	Measure/Initiative	Department Person Responsible	Date completed or projected completion date	Additional details
1.1.1 Install and Maintain "No Dumping" Signs	Completed	"No Dumping" signs continue to remain installed on Main Road, which is in the watershed of an unpaved water body. Petterett brook.	Main and Instantaneous at street or lake access points	Public Works	Not specific	Reason for addition to discharge permit discharge to the M14R
1.1.4 Monitor update to Board of Selectmen	In Progress	The Director of Public Works provided a verbal update to the Board of Selectmen on March 2020.	Provide information to Board of Selectmen annually	Public Works	Not specific	Reason for addition: keep the Board of Selectmen informed of efforts towards M14 Permit compliance helps to build understanding of and financial support for continued progress.

**FM2 space for describing future activities, if needed**

FM2	<p>1.1 Provide information on Town Website</p> <p>2.2 present public education and outreach, including for pollutants of concern?</p>	<p>Links to the following educational materials remained available through the Town's stormwater website and published through them:</p> <ul style="list-style-type: none"> <li>• "Clean Waters Starting in Your Home and Yard: Animal Waste and Water Quality"</li> <li>• "How to Care for Your Septic System"</li> <li>• "Ground Water and Drinking Water: Basic Information about Your Drinking Water"</li> <li>• "Introduction to Integrated Pest Management"</li> <li>• "Managing Your Household Chemicals"</li> <li>• "EPA Stormwater Information: National Pollutant Discharge Elimination System (NPDES)"</li> <li>• "EPA's Soak Up the Rain"</li> <li>• "CTDEEP: Stormwater and Water Quality"</li> <li>• "CT NEMO Program"</li> <li>• "Don't Trash Grass!"</li> </ul> <p>Additional sheets were also available, including:</p> <ul style="list-style-type: none"> <li>• "Lawn Care the Environmentally-Friendly Way"</li> <li>• "Conservation Landscaping for Water Quality"</li> </ul>

## 2011 M3 Summ3r

### 2011 M3 Summ3r

Item	Status	Activities in current reporting period	Measurable 2011	Department, Person Responsible	Due	2011 completed or projected completion date	Additional details
P3. Copy with public notice referents for the Stormwater Management Plan	Incomplete	Draft Stormwater Management Plan has been available electronically on the Town website and through hard copy on the Town offices Notice of Availability has been posted on the Town website.	Make draft Stormwater Management Plan available electronically on the Town website and paper copies available on Town offices. Publish notice of availability on website or local newspaper.	Public Works, Handuse	Apr 1, 2012	Apr 1, 2012	No comments were received on the draft Stormwater Management Plan. Three copies of the plan were taken during the report period, but no comments were received.
Copy with public notice referents for the final Stormwater Management Plan	Incomplete	The final Stormwater Management Plan has been available on April 4, 2012 on the Town website, as well as in hard copy at the Town Clerks Office, the Senior Center, and the Library.	Make final Stormwater Management Plan available electronically on the Town website and paper copies available on Town Hall and library.	Public Works	Apr 1, 2012	Apr 1, 2012	
Copy with public notice referents for annual Reports	Incomplete	Notice of annual report posted to Town stormwater website on January 14 2011 draft annual report posted to Town website and made available on February 12, 2011 to March 12, 2011.	Make draft annual Report available electronically on the Town website and paper copies available on Town Hall and library. Publish notice of availability on website or local newspaper.	Public Works	Feb 12, 2012	Feb 12, 2012	

Item	Status	Activities in current reporting period	Measurable Goal	Department Person Responsible	Date completed or projected completion date	Additional details
1.2 Public notice requirements for Reports Contained	In Progress	The Town has prepared the 2020 Annual Report and will submit it to DCRP as soon as possible on the town website by the April 1, 2021 deadline.	Published on March 1, 2021	Administrator	April 1, 2021	Administrator will update by the April 1, 2021 deadline.
1.3 Steward Committee Co-Chair	Complete	Steward Committee consists of Todd Roffland, Director of Public Works, Matthew Pittman, anduse Technician and Jeffrey Ford, Consultant.	Hold annual meetings of the Steward Committee	Administrator Coordinator	Not specified	Is an informal group of employees with responsibilities related to steward
1.4 Sponsor Community Participation Event	In Progress	The steward committee holds regular informational meetings during the reporting period.	Hold annual meetings of the Steward Committee	Administrator	Not specified	Information annually
1.5 Public Involvement Participation Cities planned for next year, if applicable	Pending	Household Hazardous Waste Outreach Days were sponsored in Manchester on April 11, 2021, and April 11 at the Stafford Department of Public Works on 1014 Park Care Pro Day occurs on the first Saturday of each month from May through October at the Town Recycling Center.	Hold sponsor two community participation events per year	Administrator	Not specified	Information annually

### 2.2 Describe in detail involvement/participation cities planned for the next year, if applicable

- The steward committee will continue to meet regularly. The 2020 Annual Report will be submitted to DCRP by April 1, 2021. The draft 2020 Annual Report will be made available on the Town Website.
- The Town will continue to sponsor community participation events, including Household Hazardous Waste Outreach Days.
- There is an annual cleanup planned by the Open Space and Trails Committee, subject to COVID-19 conditions.
- Participate in the first Earth Day each month in May and June through October.

## § 201 EMERGENCY PRELIMINARY PROTECTION AND APPENDIX B page 23

### § 201 EMERGENCY SUMMARY

ITEM	STATUS	ACTIVITIES IN CURRENT REPORTING PERIOD	MEASURABLE GOAL	DEPARTMENT PERSON RESPONSIBLE	DATE COMPLETED OR PROJECTED COMPLETION DATE	ADDITIONAL DETAILS
2.1 Develop Written Program	Complete		Prepare written 2022 Plan	Public Works, Land Use	September 1, 2012	
2.2 Emergency System Mapping and Database	In progress	To/in continue to update their existing system. Which is approximately 20% complete. Year date to C2022.	Update 2024 Emergency shelter system in the community.	Public Works, Land Use	September 1, 2012	Initiate employee has hired, those dates include 2021 on this effort.
	In Progress	To/in continue to develop detailed information about their stormwater infrastructure, which is approximately 20% complete. Year date to C2022.	Develop arrest database or spreadsheet including related elements listed on page 24 of 20 of the General Permit for all stormwater outfalls in the community.		December 1, 2012	Initiate employee has hired, those dates include 2021 on this effort.
	In Progress	To/in continue to update their existing system. Which is approximately 20% complete. Year date to C2022.	Update 2022 storm system, append in priority areas to include residents posted on pages 24 in Appendix 2 of the General Permit. In catchment delineations.		December 1, 2020	Initiate employee has hired, those dates include 2021 on this effort.

FUSS & O'NEILL

ITEM	Status	Activities in current reporting period	Measurable Goal	Department Person Responsible	Date completed or projected completion date	Additional details
1.12 Citizen Report Response	Complete	The Town handles citizen report through its Citizen Line, available on the Town Website.	Maintain Citizen Action Plan and procedure of the hotline on Town Website	Public Works, Land Use	Dec 1, 2012	Dec 1, 2012
1.13 Develop Finance Plan	Complete	The Town contracted with a consultant to develop their Financial Plan. The ordinance was reviewed by Town staff, sent to a public hearing on March 7, 2012, and was adopted 12 days later.	Develop ordinance for abatement activities	Public Works, Land Use, Finance	Dec 1, 2012	Mar 7, 2012
1.14 Develop record keeping system for tracking	Complete	Develops a record of dischargeable abatement actions including latitude and longitude or address, description, date of inspection, sample data taken, applicable action taken, date of resolution or repair, and responsible party.	Develop record keeping for abatement activities	Public Works	Dec 1, 2012	Dec 21, 2012
1.15 Address issues in areas with participants of concern	Not started	To progress towards this year goal to Ongoing restrictions	Not specified	anticipated completion by the end of the period		
1.16 Conduct Inventory	Complete	Completed inventory of resources available to the MPA were reported during the reporting period	To update resources in discharge to the MPA are known to have occurred in the 2 years prior to the effective date of the permanent information and respond to future issues	Public Works	Dec 1, 2012	Reason for addition: Part of the 2012 Program

**FUSS & O'NEILL**

ITEM	Status	Activities in current reporting period	Measurable Goal	Department Person Responsible	Date completed or projected completion date	Additional details
1.1.2 Assess and Prepare Priority Ranking of Catchments	Not started	Classify each catchment priority areas into an electric problem, high priority, or low priority catchment	Public Works, Land Use	PPB 1, 2012 PPB 1, 2012	Complete by Dec 1, 2012	Reason for addition: Part of the 2012 Program
1.1.3 Assess and Prepare Priority Ranking of Catchments Contingency	Not started	Ran catchments through each category except excluded catchments based on screening factors found on page 6 in Appendix I of the General Permit	Public Works, Land Use	PPB 1, 2012 PPB 1, 2012	Complete by Dec 1, 2012	Reason for addition: Part of the 2012 Program and ran by Dec 1, 2012
1.1.4 Conduct Try Weather Patterns	Not started	Conduct dry weather screening and sample where feasible of every M4 outlet and Interconnection except for excluded and Problem Catchments	Public Works, Land Use	PPB 1, 2012 PPB 1, 2012	Complete by Dec 1, 2012	Reason for addition: Part of the 2012 Program
1.1.5 Conduct Catchment Investigations and Rezoning Requests	Not started	Update catchments for systemulnerability factors and better catchment investigations	Public Works, Land Use	PPB 1, 2012 PPB 1, 2010	Complete by Dec 1, 2012	Reason for addition: Part of the 2012 Program
1.1.6 Assess	Not started	Where there are present, conduct Panhole Inspections to locate and verify source Rezone Pending final discharge permit conditions of traffic screen	Public Works	PPB 1, 2012	Complete by Dec 1, 2012	Reason for addition: Part of the 2012 Program

FUSS & O'NEILL

#### PP2 Describe in brief activities planned for the next year, if applicable?

- Maintain a Master tracking spreadsheet and ensure all employees understand the tracking process
- Continue to implement the written Policy
- Continue to update M407 facility app and detailed app and employee has held by the Town to for on this app effort
- Develop offsite screening and catchment randomizes the Town with notes from a consultant to support the screening and support effort

#### List of citizen reports of suspected illicit discharges received during this reporting period

Title of Report	Location & suspected source	Response taken
None reported		

#### Provide a record of illicit discharges occurring during the reporting period and SSIs occurring until 2012 through end of reporting period using the following table

Location Proportion street crossing address and receipt date	Date and duration of occurrence	Discharge to MS4 or surface water	Estimated volume discharged	Note or suspected clause of responsible party	Corrective measures planned and completed since date	Completed date of application
None reported						

In brief describe the method used to track illicit discharge reports, responses to those reports, and this responsibility or tracking this information

Current discharge reports are tracked through the Citizen Action Line. Reports are stored in the cloud and sent to the Director of Public Works Environmental reports received and if significant discharges are found, the Director with the Town Manager, and Code Enforcement to assist the discharge

FUSS & O'NEILL

### Provide a summary of actions taken to address septic failures using the table below

Action and nature of structure failing septic systems	Actions taken to respond to and address the failures	Impacted watershed or watershed, if known
None reported		

### Report reporting metrics

Metrics	
Planned or actual number of M4 infrastructure	24 total 16 in priority area
Planned or actual number of interconnections	12
Planned planned complete	20
Interconnection planned complete	20
Planned planned complete detailed M4 infrastructure	20
Planned assessment and priority ranking	0
Try feather screening of all High and Top priority infrastructure	0
Catchment management complete	0
Planned percentage of M4 catchment area wastewater	0%

FUSS & O'NEILL

Provide detailed description of training out classes including what type of training is provided and how often is it given once per year??

Top speed trainings are provided annually in March and ended:

- Street Sweeper operation training completed April 2020
- General staff training that covered that to foot for when on patrol and check-in dates and basins for trash, completed April 2020
- Inot and ice management and redantz said completed December 2020
- Spreader calibration, completed December 2020
- Inertia Parent Care Program training, completed April 2020

FUSS & O'NEILL

## 4.1 Construction Site Plan Control/Correction 6.24.2022 page 111

### 2.1 M2 Summary

M2	Status	Activities in current reporting period	Measures to	Department Person Responsible	Date completed or projected completion date	Additional details
4.1. Referred and Update Land Use Requirements	In progress	The Town contracted with a consultant to review existing regulations and has received recommendations for revisions. Current regulations are currently being updated. Progress has started this year due to COVID-19 restrictions and staff changes.	Piannino, Peter	2022-12-01	Participate completely by Dec 20, 2021	The Town will be continuing to evaluate the recommendations from their consultant and move forward with the revision process. There is currently construction completed in the Town.
	In progress	The Town contracted with a consultant to review existing regulations and has received recommendations for revisions. Current regulations are currently being updated. Progress has started this year due to COVID-19 restrictions and staff changes.	Piannino, Peter	2022-12-01	Participate completely by Dec 20, 2021	
4.2. Referral Plans for Stormwater Quality	In progress	Implement stormwater quality regulations, as necessary, for projects subject to the Town's regulations.	Piannino, Peter	2022-12-01	Implementation	
4.3. Conduct Site Inspections	In progress	Implement stormwater quality regulations, as necessary.	Piannino, Peter	2022-12-01	Implementation	

ITEM	Status	Activities in current reporting period	Measure No.	Department Person Responsible	Completed or projected completion date	Additional details
construction and post construction control measures?	In progress	Contract to interdepartmental coordination procedure?	Land Use and Environment and Departments	In progress	In progress	In progress
4.4 Interdepartmental Coordination	In progress	Land Use and Environment and Plan review and approval and implementation of Plan review and approval on site plan review and approval	For projects not presented at planning committee, file a list of comments and attach to John Hall that the public can review and comment on	Planning, Environment and Citizen Request Center for stormwater related comments on the application stormwater lease?	Completed in early 2018	In progress
4.5 Consideration of Potential Projects	Complete	Post notices of Somers' 'hotline' (Citizen Request Center for stormwater related comments on the application stormwater lease?)	Follow handout to provide to permit applicant	Planning	In progress	In progress
4.6 Developer Registration of PPP Requirements	In Progress	The Town is in the process of drafting a handbook to inform contractors of the potential obligations to register under the PPP construction General permit and to provide copies of the PPP Plan to others upon request	Contract to inform contractors of the potential obligations to register under the PPP construction General permit and to provide copies of the PPP Plan to others upon request	In progress	In progress	In progress

FUSS & O'NEILL

## PP2 Describe In Construction Site Environmental Control Activities planned for the next year, if applicable

- Continue to review site plans and conduct construction site inspections.
- Develop a handout to be given to developers/contractors when they apply for a permit to reflect on the requirements of the DCP Construction Order later
- General Permit
- Continue the process of reviewing and revising stormwater regulations/corporate revised/updated

## PP3 Post Construction Stormwater Management Selection Grid pattern page ???

### PP1(M) Summary

Item	Status	Activities in current reporting period	Measurable goal	Department / Person Responsible	Due	Date completed or projected completion date	Additional details
PP1. Update Land Use Regulations	In progress	The Town contracted with a consultant to review existing Land Use regulations and has received recommendations for revisions. Progress this year has started due to COVID-19 restrictions and staff in changes.	Review and update, as necessary, existing Land Use regulations and recommendations for compliance with the general permitting post-construction stormwater management requirements.	Land Use, Planning Board, Zoning Committee	12/31/2021	Incomplete completion by Dec 30, 2021	The Town will be continuing to evaluate the recommendations from their consultant and move forward with the revision process in the coming year.
PP2. Enforce Off-Street Redirection Requirements for Development and Redevelopment Projects	In progress	The Town contracted with a consultant to review existing Land Use regulations and has received recommendations for revisions. Progress this year has started due to COVID-19 restrictions and staff in changes.	Review and update, as necessary, current regulations to require the use of and identify, reduce, or eliminate regulatory barriers to off-street redirection of flow and runoff redirection practices.	Land Use, Planning Board, Zoning Committee	1/1/2022	Incomplete completion by Dec 30, 2021	Incomplete completion by Dec 30, 2021
PP3. Plan	In progress	Plans are reviewed, as necessary, to ensure compliance with Land Use regulations.	Complete plan reviews and ensure compliance with Land Use regulations.	Planning, Land Zoning Agency	1/1/2021	In progress	

FUSS & O'NEILL

ITEM	STATUS	ACTIVITIES IN CURRENT REPORTING PERIOD	MEASURED GOAL	DEPARTMENT & PERSON RESPONSIBLE	DATE COMPLETED OR PROJECTED COMPLETION DATE	ADDITIONAL DETAILS
1.1 Identify retention and detention ponds in priority areas	In Progress	To begin continuing to update the retention & storm system map, which is approximately 20% complete. Includes the locations of stormwater basins and treatment structures. Progress this year has started due to COVID-19 restrictions and staff changes.	Identify stormwater basins and treatment systems in priority areas and include them in the mapping?	1/1/2021	Incomplete by Dec 31, 2021	The Town has hired a full-time Land Use Technician to those details include prioritization on this effort.
1.2 Maintenance Plan for Stormwater Basins and Treatment Structures	Complete	The only Town-owned treatment structures are detention basins and stormwater treatment structures.	Develop a long-term maintenance plan for detention basins and stormwater treatment structures?	Planned, Public Works	Initiated before 1/1/2021	Completed by Dec 31, 2020
1.3 Update Stormwater Management Plan	In Progress	The Town's detention basins are inspected regularly and sediment is removed every 2 years, due to the low activity of the basins. Progress this year has started due to COVID-19 restrictions and staff changes?	Develop maintenance plan and inspection of retention/detention basins and stormwater treatment structures and removal of accumulated sediment and pollutants?	Planned, Public Works	Initiated before 1/1/2021	Completed by Dec 30, 2021
1.4 Establish Catchments	Complete	Catchments the directly connected properties area of off-farm catchment areas within jurisdiction provided by DCP and Conn CRRR	Catchments the directly connected properties area of off-farm catchment areas within jurisdiction provided by DCP and Conn CRRR	1/1/2020	1/1/2021	

FUSS & O'NEILL

Item	Status	Activities in current reporting period	Measure No.	Department / Person Responsible	Date completed or projected completion date	Additional details
1. In Progress	In Progress	Retrace CCR estimate as development, redevelopment, or retrofit projects effectually add or remove CCRs.		Innate by January 1, 2021	Incomplete completion anniversary beginning January 1, 2021.	
2. Address Post-Construction Issues	Not started	Address erosion and sediment problems noted during inspections conducted under the CCR through retrofits.	PBannan, PBBCD Works	Not specified	Incomplete to follow completion of the above.	

## II.2 Describe In-Construction Stormwater Management Activities planned for the next year, if applicable?

- Continue the process of redeveloping and updating existing and new infrastructure to incorporate recent and revised CCR estimates to account for development and redevelopment projects.
- Continue to track and review CCR estimates to account for development and redevelopment projects.

FUSS & O'NEILL

## Phase I Post-Construction Stormwater Management reporting metrics

Metrics	
Phase I in 2012 directly Connected impervious area (PCI)	262 acres
PCI disconnected before implementation projects retrofitted	0 acres this year? 0 acres total?
Paved or retention or detention ponds identified	0 acres this year? 0 acres total?
Retrofits completed	0
PCI disconnected	0
Prioritized cost of retrofits	0
Total Phase I area (PCI)	0 this year? 0 total?

## Briefly describe the method to be used to determine baseline PCA

This was estimated from historical data available from Conn DEP and EPA's CCR database either and prepared in Connecticut and Total Impervious Area. The CCR estimates developed at the Connecticut Project based on scale?

FUSS & O'NEILL

## Pollution Prevention Good Housekeeping Project on page 66 page 11

### 2013 MI Summary

Item	Status	Activities in current reporting period	Measurable Goal	Department Person Responsible	Date completed or projected completion date	Additional details
6.1 Employee Training	In Progress	Mosquito abatement trailer were offered to staff • Backhoe operator calibration training <ul style="list-style-type: none"><li>○ Backhoe 2010</li><li>○ 10 PPI staff attended</li></ul> • Backhoe and excavator on redaction safe use <ul style="list-style-type: none"><li>○ Backhoe 2010</li><li>○ 10 PPI staff attended</li></ul> • Paint CareProPaint training <ul style="list-style-type: none"><li>○ Paint 2010</li><li>○ Street DeepPaint Training<ul style="list-style-type: none"><li>○ Street 2010</li></ul></li></ul>	Represent a training program for Town employees, based on the Town's current protocol	Public Works	In Progress	In Progress
6.2 Equipment Maintenance	Complete	Perimeter fence has rediced by 20% in 2012 and no herbicides were used	Represent perimeter fences for parks and open space	Public Works, Board of Education	Dec 31, 2012	before/beginning of 2012
6.3 Equipment Maintenance	Complete	2012 pet waste stations were installed in parks and public areas, along with seven stations enclosed in pet owners to place up pet wastes	Represent pet waste stations and open spaces and public areas	Public Works	Dec 31, 2012	
6.4 Equipment Maintenance	Complete	Coyote shotgunettes were installed around the Town's parks to discourage waterfowl appearance	Represent MPMS in targeted areas as applicable	Public Works, Land Use	Dec 31, 2012	

Item	Status	Activities in current reporting period	Measureable Goal	Department Person Responsible	Due Date	Site completed or projected completion date	Additional details
6.1 Progress to CIP Priorities	Not started	Progress this year has stalled due to COVID-19 restrictions and staffing challenges	Buildings and facilities for spiff prevention and protection prevention practices and equipment addditional BMPs as necessary	PBPPC Priority	Priority	Integrate completion by Dec 1, 2021	PPCC Plans and PPPPs are in place for P2 facilities, parts, and the P2erspective later. More formal conversations are needed, especially at the school level.
6.2 Implement M14 Property and Operations Maintenance Contingency	In Progress	Residents sell their leases to the recycling center	Identify and modify, as necessary, P2incapacitated vehicle and equipment parking, fueling, sealing, and maintenance practices	PBPPC Priority	2021-01-2021	Integrate completion by Dec 1, 2021	Rehab Maintenance is all done at the PBPPC facility and are in place, which both have oil/water separators for trash later. Practices will be evaluated.
6.3 Coordinate with Interconnected M24s	Not started		Coordinate with neighboring municipalities, Department of Corrections, and CT 22T acting bodies associated with the interconnected M24s	PBPPC Priority		Not specified	Integrated completion by the end of the period.
6.4 Control Contamination of Pollutants from Impaired Sources	In Progress	To implement factories identified to date	Identify impacted factories Control through proper, later liability monitor, the Town's ordinances related to wastewater discharge, and targeted education and	Not specified		Integrated	

**FUSS & O'NEILL**

Item	Activities in current reporting period	Measurable goal	Department/Person responsible	Date completed or projected completion date	Additional details
6.1.1 Plateau additonal leases to partnered partners	Cooperated with local leases for discharge to partnered partners	“No Dumping” signs remain installed on Bee Road, Rich Is in the watershed of an approved later body tributaries rooted	Install and plant “No Dumping” signs at stream or lake access points see BMP 11.2	Public Works Not specified	Planted
6.5.1 Tract projects that disconnect	Innovate Total Total disconnected for year 4?	Zone develop the report period Total Total that has been disconnected exceeds the 1 for year 4?	Innovate total area of CPC that is disconnected as a result of redevelopment or retrofits?	Public Works, Planning	Innovation
6.5.2 Infrastructure Repair, Rehabilitation, and Retrofit	Innovate Repair, Rehabilitation, and Retrofit	Catch basins replaced were condemned as needed during the report period	Repair, rehabilitate, or retrofit M4 infrastructure deficiencies, structures as needed in a timely manner?	Public Works 2021	Innovation
6.5.3 Retrofit Program: Develop project plan to identify potential retrofit projects	Not started	The 1 per year year 4 has already been set	Public Works and Use by Dec 1, 2021	2020	Identified cooperatively by the deadline of July 1, 2022
6.5.4 Retrofit Program: Develop retrofit projects to disconnect of CPC?	Innovate Program: Develop retrofit projects to disconnect of CPC?	The 1 per year year 4 has already been set	Disconnect 1 per year between in year 4	2021	Initiated cooperatively by the deadline of July 1, 2022

Item	Status	Activities in current reporting period	Measurable Goal	Department Person Responsible	Due	Date completed or projected completion date	Additional details
6.10 Painted Streets	In Progress	Proportionately to curb spaces of streets here swept from May 2020 to June 2020. Appropriately to public yards of watered lawns reported and disposed off.	Keep all public spaces of streets and yards each spring and fall.	Public Works	January 1, 2012	January 1, 2012	
6.10 Painted Streets Continued	In Progress	To new or redeveloped yards painted part of the report period.	Paint off redaction easures such as permeable pavement or other easures to protect sheet flow of stormwater for all new and redeveloped yards.	Public Works	January 1, 2012	January 1, 2012	
6.11 Catch Basin Cleanings	Complete	All catch basins have been cleaned and inspected forward, the Tohono O'odham clean and inspect one third of the catch basins each year.	Inspect and clean 100% of catch basins.	Public Works	January 1, 2012	January 1, 2012	
6.12 Catch Basin Management Practices	In Progress	Cooperate	Develop a plan for optimal catch basin cleaning. Establish fixed frequency in certain areas based on inspection findings, such that no catch basin is more than 20 feet.	Public Works	January 1, 2012	January 1, 2012	

FUSS & O'NEILL

## PP2 Describe in pollution prevention foodhousekeeping activities planned for the next year, if applicable?

- Continue to document pertinent maintenance clean up operations
- Maintain a list of contractors received regarding road and highway maintenance concerns
- Continue to conduct employee training
- Continue to inspect the maintenance facility and maintain records of each inspection
- Coordinate efforts with local schools
- Continue to maintain flor order system
- Implement clean one trip catch basins
- Identify a list of potential sites for retrofit planning
- • • • • • •

FUSS &amp; O'NEILL

## Pollution Prevention Good Housekeeping reporting metrics

Metrics	
Employee training provided for key staff	Yes, April 2020
Street sweepings	10
Curb passes swept	Approved curb yards
Number for pass of laterals detected	
Catch basin cleaning	
Total catch basins in priority area	1,264
Total catch basins in M4	1,021
Catch basins inspected	0 Catch basin inspections and cleanups passed in 2020 due to COVID-19
Catch basins cleaned	0
Number for pass of laterals removed from all catch basins	0 curb yards
Number removed from catch basins to separated laterals if known	0
No? management	
Type(s) of debris lateral use	"ClearLane" Treated road salt
Total amount of each debris lateral application	16 tons
Type(s) of debris equipment used	Truck mounted collection dumper
Pantries treated	120 pantries
No? disposal location	200 feet on site
Staff training provided on application methods & equipment	Yes, April 2020
Management personnel provided actions for perimeter properties in basins with CCP patients	
Reduction in application of fertilizers since start of project	74%
Gangs with high potential to contribute bacteria parts, parts with open laterals, & sites with failing septic systems:	4 acres. The High School field within the tract has replaced artificial turf in 2020.
Cost of mitigation actions/retrofit	200 treated to handle of pet waste stations

FUSS & O'NEILL

#### □ □ □ Cittc□ basins cleaning progrm

##### □ □ □ describe tlementod used to optimiz our cttc basins inspection and cleanin schedul

The Town has cleaned all of its 42 catch basins and 222 contours to cleapratey 122 2017 each year. Inside vendor performs the cleanin phre P staff member inspects the basin, the condition of the basin and whether any repairs are needed, and estimates the amount of material removed during cleanin that all basins have been cleaned, the Town will produce a list of basins that require more frequent future cleaning based on that need. Basins that need frequent cleaning will be used to inform prioritization for scheduling for catch basin inspection and cleaning.

##### □ □ □ retrofit progrm

□ □ □ describe the retrofit prioritization and prioritization process, the selected projects for the selection of those projects and the total CCA to be disconnected upon completion of each project

n/a

□ □ □ escribe plans for continuing the retrofit program and how to dictate the total of 12 CCA disconnection in future years

n/a

□ □ □ escribe plans for continuing the retrofit program and this permit term until the end of the next 10 years

n/a

## Part IImpaired Waters investigation and monitoring

### 1. Impaired Waters investigation and monitoring program

1.1 Indicate which stormwater pollutant(s) of concern occurs in your municipality or institution's data is available on the M24 map below:  
<http://ppseconned.ct.gov/s4pa/>

Nitrogen Phosphorus  Bacteria  Mercury  Other Pollutant of Concern

#### 1.2 Describe problem status

Discuss 1) the status of monitoring for completed, 2) the summary of the results and any notes to Stormwater Management Plan based on monitoring results.

Two outfalls to the Town's impaired waters were screened for bacteria under the 2004 permit; those data are included below. In section 221 one of the two outfalls had high levels of coliform fecal coliform. In section 20 additional screens of other bodies has been conducted to date under the 2012 permit. The waterbodies in the state are subject to the Northeast Regional Mercury TMDL, however no specific monitoring or sampling is required in association with this TMDL.

## 2. Screening details for outfalls to impaired bodies reflect on page 41?

### 2.1 Screening details

Complete the table below for any outfalls screened during the report period per Each Annual Report will add on to the previous year's screening data shown in a cumulative list of screening data.

Plummet ID	Latitude and Longitude	Sample date	Test meter (nitrogen, Phosphorus, bacteria, or other pollutant of concern)	Time of monitor used	Total up required
Not Yet Started					???

FUSS & O'NEILL

## 2022 Credit fourscreening data collected under 2004 permit

If any offfares to unpreserved waters were sampled under the 2004 M4 permit, that data can count towards the nonpoint runoff representations under the 2011 M4 permit. Complete the table below record sampling data for any offfares to unpreserved waters under the 2004 M4 permit.

Parameter	Latitude & Longitude	Sample date	Bromide, Phosphorus, bacteria, or other pollutant of concern	Results	Sample or monitor required	Follow up required
R1 Cantic River at Parsons Road	22°41'16"	22/04/16	CO2	1020 MP>100 TPS	Phoenix	Yes
C2 Cantic River at Main Street	22°41'16"	22/04/16	CO2	242 MP>100 TPS	Phoenix	No

Proposed monitoring report last comment period if the following pollutant thresholds are exceeded:

Pollutant of concern	Pollutant tested	Total	Total	Total	Total	Total
Bacteria	Bacteriological	22/04/16	22/04/16	22/04/16	22/04/16	22/04/16
Phosphorus	Total P	022/04/16	022/04/16	022/04/16	022/04/16	022/04/16
Bacteria (fresh waterbody)	•	22/04/2022 100 TPS for surface areas or 410 col>100 TPS for all others				
	•	Total Col<100 TPS				
Bacteria salt waterbody	•	22/04/2022 100 TPS for Class 1 and 260 col>100 TPS for Class 2				
	•	Interococci 104 col>100 TPS for surface areas or 2060 col>100 for all others				
Other pollutants of concern	apple turbidity 25 TPS	22/04/16	22/04/16	22/04/16	22/04/16	22/04/16

## Follow up investigations section on 6/1/2022 page 4?

Provide the following information on how offfares exceed the pollutant threshold

Parameter	Status of direct test investigation	Control measure implementation to address impairment
Not yet started		

FUSS & O'NEILL

## Prioritized outfall monitoring election 6/22/21 10:00 AM page 4

Once outfall screen has been completed for at least 100 of outfalls to impaled waters, identify 6 of the highest concern outfall monitor these outfalls on an annual basis by July 1, 2020.

Outfall	Latitude Longitude	Sample Site	Perimeter	Results	Time of monitor used

FUSS & O'NEILL

## Part II Additional Program Item

### 1 Assessment and Priority Ranking of Commitments due to pending?

Provide a list of all catchments with ranking results instead of pending catchment definitions?

1 Commitment to be in place	2 Criterion	3 Date
Not yet completed		

### 2 Nutrient and Interconnection Screening and Simplification pending?

#### 2.1 Nutrient screening and simplification from outlets and interconnections

Provide sample data for outlets where has observed poorly include point of concern data for outlets that discharge into stormwater red water bodies?

Outfall Interconnection	Elevation Zone	Screening sample date	Ammonium	Chlorine	Conductivity	Salinity	E. coli or Enterococcus	Surface	Water Temp	Pollutant of concern	Required, Follow-up Actions
Not yet started											
Not yet started											

#### 2.2 Nutrient sample and inspection due?

Provide sample data for outlets and key function panhandles of any catchment area with at least one type generally factor?

Outfall Interconnection	Elevation Zone	Sample date	Ammonium	Chlorine	Conductivity	Salinity	E. coli or Enterococcus	Surface	Water Temp	Pollutant of concern
Not yet started										

System Vulnerability Sector Summary

For those catchments being considered for designation as **high priority**, **priority categories** or **absence of priority** factors **if present**, it which SVF's were identified. An example is provided below.

Put	Receiving Letter	System Vulnerability Factors
Not yet started		

Where ???'s are:

- 117 History of pipes, enclosures, but not related to, those resulting from weather, heat, fire, or fatality increase by 20%  
118 either pipework stations, siphons, or non-sanitary sewer restrictions where pipelines connect to residential areas in towns  
119 broader sanitary sewer network of sewerage systems in residential areas, collector back-ups, or frequent collector collector connections

120 Collection or treatment plant panholes serving storm and sanitary sewer interceptants

121 Collection trench construction serving both storm and sanitary sewer interceptants

122 Crossings of storm and sanitary sewer interceptants

123 Sanitary sewer interceptants known or suspected to have been constructed with an underdrain system

124 Sanitary sewer infrastructure defects such as lateral, cracked, broken, or offset sanitary infrastructure piping connecting between storm and sanitary sewer interceptors, or other transversable factors identified through infrastructure analysis, namely when they are, or other infrastructure interceptants

125 Intersections

126 Areas formerly served by closed sewer systems

127 Any sanitary sewer and storm drain infrastructure greater than 40 years old in developed and densely developed areas

128 Despread code required septic system trades reflected at property transfers and indicate of inadequate soils, water table separation factors of the area rather than poor owner maintenance

129 History of tipping health department or sanitarians address in widespread septic system failures and cause of inadequate soils, water table separation factors of the area rather than poor owner maintenance

130 Other physical constraints of the area rather than poor owner maintenance

FUSS & O'NEILL

**PP2 Re-enter function minhole driller better screening and simplifying data**

Re-enter function	Elevation	Screening sample date	Test for evidence of illicit discharge	Ammonia	Chlorine	Surfactants
Minhole	Elevation	Sample date	Evidence of illicit discharge			
Not yet started						

**PP3 Better interimstitution output simplifying data**

Put on	Elevation	Sample date	Ammonia	Chlorine	Surfactants
Not yet started					

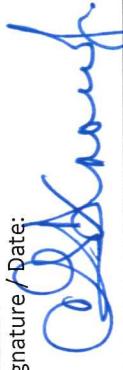

**PP4 Better for each source confirmed troupe cleanup investigation procedure**

Discard location	Source location	Description	Method of discoloration	Site of discoloration	Mitigation or enforcement action	Estimated volume of flow removed
PP4						

#### Part IV: Certification

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify that, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that a false statement made in this document or its attachments may be punishable as a criminal offense, in accordance with Section 22a-6 of the Connecticut General Statutes, pursuant to Section 53a-157b of the Connecticut General Statutes, and in accordance with any other applicable statute."
